1 May 1975

MEMORANDUM FOR: DIA Member, Intelligence Research and
Development Council

SUBJECT: Anti-Jam Policy and Related Threat

1. At the 15 April Intelligence Research and Development Council meeting, discussion among the members on anti-jam policy centered on the lack of uniform knowledge among data link program/system managers as to the nature of the A/J threat. It was ventured that DIA threat analysis could serve as the base for subsequent formal establishment of A/J policy.

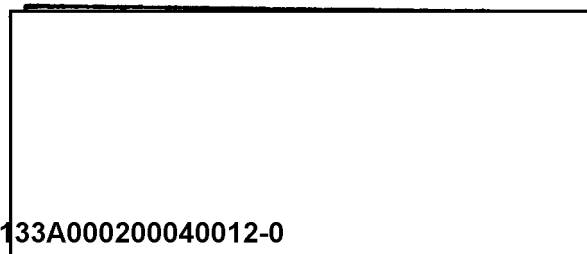

2. Time on the June agenda has been reserved on the premise that you may wish to brief the Council on present and future DIA efforts on this subject.
